

## SDiD-DK-1020 Development Kit

### Product Data Sheet

The SDiD™ 1020 Development Kit is the essential tool to quickly and easily launch your mobile Radio Frequency Identification (RFID) or contactless applications to market. The SDiD™ 1020 Development Kit is a complete solution which includes an SDiD™ 1020 SD Card, two RFID tags, and a Software Development Kit (SDK) with binaries, header files, drivers, demo applications and sample applications with full source code. The SDK delivers a powerful, yet straightforward Application Programming Interface (API) which greatly reduces the learning curve and simplifies the overall development process. With the SDiD™ 1020 development kit, developers can quickly familiarize themselves with RFID technologies so they can rapidly design, develop and exhibit cutting-edge contactless solutions.
